

Adrienne Tacke

Full Stack Developer

Experience

Senior Software Engineer Fifth Street Partners

January 2017 – Present | Las Vegas, NV

I lead software development projects, resolve technical conflicts between existing software environments and requested application features and modifications, and provide technical guidance to other developers. Currently, my team and I are working with Experian to extend their CRM software suite.

UI/UX Lead Developer Ultius Inc.

August 2016 – December 2016 | Las Vegas, NV

Reporting directly to the CEO, I influenced key user experience and design decisions. Working in an Agile environment with one week sprints, I conceptualized interfaces and user flows using Moqups and Adobe Photoshop, iterated through the design process using feedback from Hangouts meetings and Jira user stories, and translated ideas into visually appealing and functional user experiences.

Software Developer HealthCare Partners of Nevada

July 2015 – July 2016 | Las Vegas, NV

As a Software Developer I envisioned innovative software products, directed UI and UX concepts, and implemented complete systems. Most notable are the "Clinic Wait Time" application, a client-focused wait time display deployed at over 10 HealthCare Partners clinics across Las Vegas, "Intercept", a comprehensive, real-time client data aggregation and analysis system, and the "Patient Experience Survey" application, a mobile-ready survey with i18n and l10n implemented for Spanish and Tagalog.

Developed all applications with C#, ASP.NET MVC framework, React, Webpack, JavaScript, Web API, SQL Server, Google Material Design, and various JS libraries.

Associate Developer UNLV Office of Information Technology

December 2010 – June 2015 | Las Vegas, NV

Utilized C# and .NET framework for core backend, Bootstrap for core frontend, and established key integrations with the Google Admin SDK to build the "Rebelmail Toolkit", a web application that governs the university's email system and administers all email accounts.

Education

University of Nevada Las Vegas

December 2012 | Las Vegas, NV

Bachelor of Science, Business Administration

Major: Management Information Systems
